CERSANIT WE ARE BRINGING YOUR DREAM BATHROOM TO LIFE

We are a Polish brand that has been helping millions of people design and renovate their bathrooms for years. We understand our customers' needs, which is why we create solutions that genuinely simplify everyday life – incorporating advanced technologies ranging from water-saving systems and ultra-quiet performance to enhanced safety, hygiene, and smart space management. We offer everything you need for a complete bathroom design: tiles, toilet ceramics, furniture, fittings, bathtubs, shower enclo-

suers and trays, and accessories. This enables you to design a harmonious and comfortable bathroom space – from start to finish. Our mission is to bring your dream bathroom to life. That's why we design thoughtful, well-crafted products that suit every style. We're here as your trusted guide – to inspire you, share our expertise, and support you every step of the way. Everything we create is made with you in mind – smart, functional, and effortlessly elegant.

BATHTUBS AND CASINGS

Freestanding, rectangular, symmetrical and asymmetrical - all **CERSANIT** bathtub models are made of safe, durable and damage resistant acrylic. They have double reinforcement and can hold loads up to 400 kg. The addition of UV stabilizer in acrylic plates used in the production of bathtubs will make their pristine whiteness please the eye for many years.

The set includes adjustable feet, which allow you to level the bathtub and get its height to your individual requirements. Thanks to various shapes and sizes of **CERSANIT** bathtubs, arranging every bathroom will no longer be a problem.

With **CERSANIT** products, creating a relaxation zone in the bathroom will be as easy as ever.

STOP UV
LONG-LASTING ACRYLIC WHITE

STOP UV

A special anti-UV stabilizer is added to the acrylic plates from which **CERSANIT** bathtubs are made. Thanks to its presence, the whiteness of bathtubs lasts for many years.

ACRYLIC

The premium quality acrylic used in the **CERSANIT** bathtubs makes its interior pleasant to the touch, quickly warm up and retain heat for a long time. The acrylic also dampens the noise of the stream of inflowing water.

DOUBLE REINFORCEMENT AND LOAD CAPACITY UP TO 400 KG

The bottom of the bathtub has a special double reinforcement made of resin and fibreglass. This means that the bathtub can withstand loads of up to 400 kg!

ADJUSTABLE FEET

Each bathtub is supplied with adjustable feet, which allow you to adjust the height of the bathtub individually. Thus, it is easy to adjust the height of the bathtub both to individual requirements and to the arrangement of the bathroom.

INVERTO

When looking for modern solutions for our bathroom, it is important to find the right balance between form and functionality. In the INVERTO by Cersanit collection of freestanding bathtubs, timeless grace is combined with intelligent technological solutions that together provide a new perspective on design. The unique 180x80 and 170x80 cm freestanding bathtubs impress with their modern and austere design, while offering a whole host of innovations. The extremely thin edge of the oval freestanding bathtub INVERTO by Cersanit SPA, the stylish and conveniently located central drain or the possibility of using it for two people - these are just some of the advantages of this unique product. Treat yourself to the extraordinary pleasure of bathing and relaxing time in the INVERTO by Cersanit bathtub.

The ZEN by Cersanit collection consists of rectangular bathtubs with an elegant, but also exceptionally practical, design. Made of high quality acrylic, they are an ideal proposal for modern bathrooms. The rectangular ZEN by Cersanit bathtubs are sheer pleasure of a relaxing bath. The ergonomic inside with a specially contoured backrest zone and shoulder space make it easy to find a comfortable position during the bath. This series consists of three bathtubs of standard sizes, available with adjustable feet. They look beautiful in a tile enclosure or with front and side panels. The bathtubs can be placed in recesses in the corner of the room, as well as showcased as the defining element of the style of the bathroom.

ZEN
BY cersanit

CREA

The comfortable CREA bathtubs have been designed with ceramic tiles in mind. This is why they sport an extremely thin, 10-millimetre rim. Another advantage is their increased depth and ergonomic shape, guaranteeing a comfortable bathing experience. Our broad range of bathtubs, available in various shapes and sizes, helps you to design your bathroom regardless of the amount of space available, and always in line with your preferences.

RECTANGULAR BATHTUBS

CREA

The rectangular bathtubs of CREA series have a profiled interior and a comfortable, greater than standard depth.

They have been designed to be built-in with tiles and for this reason, features an extremely thin edge of only 10 mm thick. CREA bathtubs are available in four sizes.

Increased bathtub depth and ergonomic backrest guarantees comfort and convenience during bathing.

The **VIRGO** range of rectangular bathtubs combines modern design with exceptional comfort. A gently reclined backrest and ergonomically contoured interior invite you to unwind in deep relaxation. Made from premium-quality acrylic, each VIRGO bathtub feels pleasant to the touch, warms quickly, and retains heat for longer. The acrylic surface also helps reduce the noise of running water, enhancing your bathing experience. Each model can be paired with optional side and front panels for a complete look. The collection offers six different sizes, making it a perfect fit for both compact and spacious bathrooms. The largest model - **VIRGO 190** - is designed for two people, featuring symmetrical backrests and a centrally positioned waste outlet along the longer edge.

SMART

SMART bathtubs are available in two sizes, in left- and right-sided versions. The ergonomic shape allows you to take a comfortable reclining position. Their distinguishing feature is a wide shelf that can be used as a space for bathing accessories.

SMART bathtubs have a possibility of mounting the fittings. Adjustable feet are included to mount the bathtub at the height that suits individual needs.

There is also a possibility to buy a furniture casing with functional lockers and a bathtub screen.

LARGA

Rectangular bathtubs from the LARGA by Cersanit series delight with their elegant geometric design and enhanced bathing comfort thanks to unparalleled ergonomic backrest. This is a perfect solution for a modern bathroom, regardless of its size. The LARGA by Cersanit bathtubs offers the narrowest rim on the market being only 10 mm, it has been designed with tile fitting in mind, defining a modern, light style of the interior. The LARGA by Cersanit series is available in 5 sizes ranging from 150 cm to 190 cm, making them suitable for both small bathrooms in blocks of flats and spacious bathing spa rooms. The roomy bathtub with perfectly profiled backrest will provide the highest comfort to every lover of long baths. LARGA by Cersanit bathtubs 180 and 190 bathtubs have symmetrical, slightly sloping backrests and the water outlet is located exactly in the centre, so that even two people can enjoy blissfully relaxing baths together.

CITY
BY cersanit

CITY by Cersanit is a collection of bathtubs that fit in perfectly with modern design. Its soothing lines are a promise of the deep rest and detachment from the hustle and bustle of the city. The seat and backrest are designed in accordance with the principles of ergonomics, thanks to which a comfortable and relaxation conducive position is found naturally. The finishing of the bathtub makes it easy to keep perfectly clean, as well as maintenance-free for years. The set includes adjustable, solid bathtub feet. The CITY bathtubs are complemented by the available elegant and easy-to-install VIRGO casings. We recommend choosing the Cersanit automatic siphon, as well as a bath screen.

NIKE

NIKE series bathtubs are available in four universal sizes so that they can become part of the furnishing of any type of bathroom - both large and small, decorated in any style. **NIKE** bathtubs are distinguished by their modern, geometric design, but their interior is traditionally profiled, with a slightly inclined backrest zone.

The interesting design of the bathtub will be emphasized by the casing, which consists of a side panel and a front panel, with a practical notch running at the bottom. The corner edges of the bathtub provide a practical surface for use, on which many of the necessary bathing accessories can be placed. Thanks to the adjustable feet, the height of the **NIKE** bathtubs can be adjusted during installation.

OCTAVIA

OCTAVIA bathtubs have a geometric design with a spacious interior with a traditional shape. Its rounded edges allow you to position your back comfortably while bathing. Corner edges provide an additional, practical surface, thanks to which all necessary cosmetics are within your reach. Available in four sizes, **OCTAVIA** bathtubs are equipped with adjustable feet for easy height adjustment. They look elegant in a tiling built-in, as an integral part of the bathroom design, but also with side and front casings as a leading bathroom decoration.

NAO

With their universal shape, NAO bathtubs will look beautiful in both large and smaller bathrooms. Both in classic arrangements as well as modern ones. NAO collection consists of bathtubs in four different sizes. In different sizes, available with adjustable feet. Their practical, rectangular form is not only universal, but it also provides exceptional comfort of use. Spacious interior has a profiled backrest so you can lie down comfortably while bathing. NAO bathtubs compose well with side and front casings, complementing the minimalistic space of the functional bathroom. Adjustable feet are included to mount the bathtub at the height that suits individual needs.

ASYMMETRIC BATHTUBS

SICILIA

The asymmetrical **SICILIA** bathtubs stand out with their aesthetic form, which makes them an eye-catching design element. In addition, the spacious, ergonomic shape and practical seat provide an exceptional comfort of use. Available in four sizes, in left- and right-hand versions.

JOANNA NEW

Minimalism and comfort - these features best summarize the essence of **JOANNA NEW** bathtub series. The specially shaped backrest zone, lowered armrest zone and enlarged interior of the bathtub enhance its practical side, but also its comfort. With its oval shape and spacious inner surface, **JOANNA NEW** asymmetrical bathtub is available in as many as six sizes, in right-handed and left-handed versions. This gives the possibility of arrangement in practically every bathroom. There is a possibility to buy a dedicated casing for **JOANNA NEW** bathtub.
